Tackle M&A projects head on with MigrationWiz

Mergers and acquisitions (M&A) are usually unique, high-profile projects that involve many workloads and high volumes of data. It's vital to be well-versed in all aspects of the project in order to execute seamless IT consolidation post-acquisition. When you standardise on MigrationWiz, you can offer customers an all-in-one solution that will help them realise the true value of Microsoft 365 faster.

100% SaaS MigrationWiz is a trusted partner in the digital transformation process. It's an automated tool that supports multi-workload projects and helps simplify the migration and customer onboarding process. MigrationWiz is an all-in-one solution that migrates mailboxes, documents, public folders, shared documents, and Teams.

See benefits sooner post-acquisition

Support IT and integration

- Preserve IP and data from the newly acquired company
- Consolidate information and systems into a single environment

Reduce time to ROI

- Cut costs and accelerate the merging of two organisations
- Realize benefits from the acquisition faster with an empowered workforce

Ensure a seamless experience for end users

- Enable employees to transition and onboard quickly
- Reduce downtime and interruption of day-to-day work

Supported Scenarios

Merge Microsoft 365 customers.

Bring data from one or more Microsoft 365 tenants into a unified environment. Migrate Exchange Online, OneDrive, SharePoint Online, and Teams with an all-in-one solution.

Move cloud office suites.

Migrate Google Workplace to M365 to benefit from greater workforce collaboration post-acquisition.

Consolidate multi-source environments.

Move data from several disparate endpoints (including regional differences) to Microsoft 365. MigrationWiz supports Exchange Server 2010+, Lotus Notes 6.5+, Zimbra, and PSTs.
